192 Fieldbrook Ln Magnolia, DE \* (302)315-1775

[jjmohamme14@gmail.com](mailto:jjmohamme14@gmail.com) ~ [Linked/in/joshua-mohammed14/](https://www.linkedin.com/in/joshua-mohammed14/)

Aspiring IT professional seeking entry-level positions as a digital forensics analyst or software developer with a passion for investigating and resolving cybercrime along with creating innovative and user-friendly applications. Proven ability to collect, analyze, and report on digital evidence. Seeking an opportunity to use my skills and knowledge to positively impact the fight against cybercrime. Highly collaborative team player focused on meeting all organizational objectives while ensuring excellent customer service. Eager to accept new roles as well as learn, adapt, and improve processes.

## RELEVANT EXPERIENCE

### January 2023- September 2023

#### Network Technician ~ Bally's Dover Casino & Resort

*Monitor the performance of the AS400 system and its network connections.*

*Troubleshooting AS400 network connectivity issues.*

*Configure and manage AS400 network security settings.*

*Keep up-to-date on the latest AS400 network technologies and security threats.*

*Work with other casino employees to resolve network-related problems.*

*Document network configurations and procedures.*

*Train other casino employees on network security best practices.*

*Network technicians working at casinos must also be aware of the unique security challenges that casinos face. Casinos are a target for cyberattacks, so network technicians must be able to implement and maintain strong security measures to protect the casino's data.*

### June 2021- January 2023

#### Biolab Technician ~ Curative Inc.

*The Curative Testing Program was rolling out the distribution of COVID-19 testing at mobile and fixed sites in Delaware and across the country. I set up and prepared static and mobile testing sites. Daily duties would include checking people in for appointments and directing walk-ins. Tracking and reporting key data points and participating in training/retraining in medical information. Comply with all safety policies and procedures in the work area, including the use of applicable protective equipment when exposed to potentially infectious agents. Understand and comply with federal, state, and local laws and company policies. Adhere to quality assurance procedures and maintain all HIPAA standards. Assemble test kits and log temperature data throughout each shift to maintain viable samples and tests.*

### July 2020 - July 2021

#### Helpdesk Support Tech 1~ State of Delaware

*I was responsible for providing technical support via phone, email, chat, and in-person to users who need assistance with software, hardware, network, and other computer-related issues. In addition, I am responsible for documenting, tracking, and monitoring technical issues to ensure prompt resolution and maintain high levels of end-user satisfaction.*
